- Learn how to improve your current improvement process using the Shingo criteria
- Learn how A3 thinking is used to deliver targeted results to a specific opportunity.
- Understand how to use transparency to measure local and global success
- Learn the right tools and techniques for interim action vs. long term improvement
- Learn how to use the Shingo Prize to accelerate your improvement journey
- Learn how to build the capability of your managers using the Shingo Prize criteria

Why Simpler Shingo Readiness Initiative?

The Shingo Prize achievement criteria provides the framework for identifying and evaluating world class manufacturing and business related competence and performance.

Shingo Prize applicants must prepare an Achievement Report that details key activities and results for each section based on relevant facts and data spanning a period of three years or longer.

Simpler will assist in Achievement Report guidance, project plan development , and monthly gap analysis while coaching and mentoring Leadership.

A professional approach to prepare installations for their bid to win the Shingo Prize award.
